Re: PSD Application No. TV-17700, Facility AIRS No. : 06100001

Dear Mr. Sajer:

The air quality aspects of this application may go through a few different forms of public participation. First, it will go through our standard Public Advisory for a thirty (30) day public comment period. This Advisory has already been sent to everyone who is on our electronic mailing list to receive such notices. A listing of Public Advisories from the Air Protection Branch can also be found at EPD's web page http://www.gaepd.org/Documents/events_Notices.html and by searching for "advisory" in the "EPD Notice Type" Field. Second, Yellow Pine is required to publish a Public Notice in *The Cuthbert Southern Tribune*, 204 Maple Street, P. O. Box 257, Cuthbert, GA 39840 (Tel: 229-732-6016, *Early County News*, 115 College Street, P. O. Box 748, Blakely, Georgia 31723 (Tel: 229-723-4376), and in *The Abbeville Herald*, 135 Kirkland Street, P.O. Box 609, Abbeville, Alabama 36310-2113 (Tel: 334-565-2331) within 14 days of the date of this letter (see attached letter from Harold Reheis regarding the public notice policy for new power plant applications) to notify the public near the proposed facility that an application has been submitted. The notice you should publish is attached to this letter. You should notify me at least two business days prior to the placement of the notice and you should submit a "tear sheet" of the notice within 7 days after the notice is published. Third, Yellow Pine will be required to publish another Public Notice in *The Cuthbert Southern Tribune*, *Early County News*, and *The Abbeville Herald* notifying the public of the issuance of the draft permit. If EPD receives a request for a public hearing, one will be held at least 30 days after notice of the hearing has been given.

If you have any questions or need more information, please contact me at (404) 362-2700 or via e-mail at tyneshia_tate@dnr.state.ga.us.

Sincerely,

Tyneshia Tate
Environmental Engineer
